

IS THE GLOBAL NORTH AND GLOBAL SOUTH DEPENDENT ON ONE ANOTHER?

YES, BECAUSE WHEN WE LOOK AT THE RELATIONSHIP BETWEEN THE GLOBAL NORTH AND THE **GLOBAL SOUTH,**

The Global North and the Global South depend on each other in many ways.

Countries in the Global North, like the United States and Japan, get **raw materials** and labor from countries in the **Global South** such as the Philippines and Nigeria.

At the same time, countries in the **Global South** rely on the North for technology, investments, and finished products.

When we think about the things we use every day like phones, clothes, and even food, we realize that many of these come from different parts of the world working together.

Even though we understand that the relationship is not always equal because **richer countries** often have more power, we still believe that both sides need each other to grow and

OVERALL, WE CAN CONCLUDE THAT THE **GLOBAL NORTH** AND **GLOBAL SOUTH** ARE **CONNECTED**, and NEITHER ONE CAN FULLY SUCCEED WITHOUT THE OTHER.

IS THE GLOBAL NORTH AND GLOBAL SOUTH DEPENDENT ON ONE ANOTHER?

Are the Global North and Global South dependent on one another?
